Yes, that would be helpful for me to have a recent letter for formatting purposes.

I am looking at the notes here and Betsy Varco left a note to asking whether ARA or RA will sign this letter. Let me bring this up with Sandy on Monday. We can always change the signature block. Do you want me to send you one of the recent letter so that it is in the right format?

Yes, you can leave it in my office. I am working on the response today from home. One thing that would help me prepare the response is knowing who is to sign the response letter. Could you email me who is to sign the response letter?

Hi Victor,

I have received the official CMS folder for this control. Should I bring this to you to prepare response letter?

The bulk of the letter concerns the Site Assessment programs work at the Darrow, Freezeout and Triangle Abandoned Uranium mines, thus the response should come from EPR. I will need a paragraph from the Office of Water responding to the underground injection permit concerns raised in the letter.

I received an original copy of this letter and CD this morning, logged it in CMS, and took it to OWP for response. Should it come to EPR instead?

Hi Betsy,  
EPR has received the attached letter. Please advise if we should log it in CMS, for control.

Thank you,

**Subject:** Darrow, Freezeout, and Triangle Abandoned Uranium Mines - Citizen Letter

Noah,

I received the attached letter requesting EPA reopen the investigation of the Darrow, Freezeout, and Triangle Abandoned Uranium Mine site to evaluate releases due to erosion from mine waste piles. Furthermore, the letter requests EPA suspend the Powertech Azarga permit application for the underground injection wells. This permit is being evaluated by the Office of Water.

The letter is addressed to Deb Thomas and me. Could you check to see if Deb received a copy of this letter and how the Region is to respond to the letter.

The letter included a disk with photographs. I have completed a virus scan on the disk and can download the photos to a share drive.

Victor
